

Cycle 'MOT' Checklist

A free cycle safety check is **not** a substitute for a full service performed by a qualified cycle technician. If the inspected cycle requires replacement parts and/or further professional attention, the owner should obtain an estimate for the cost to make the cycle roadworthy.

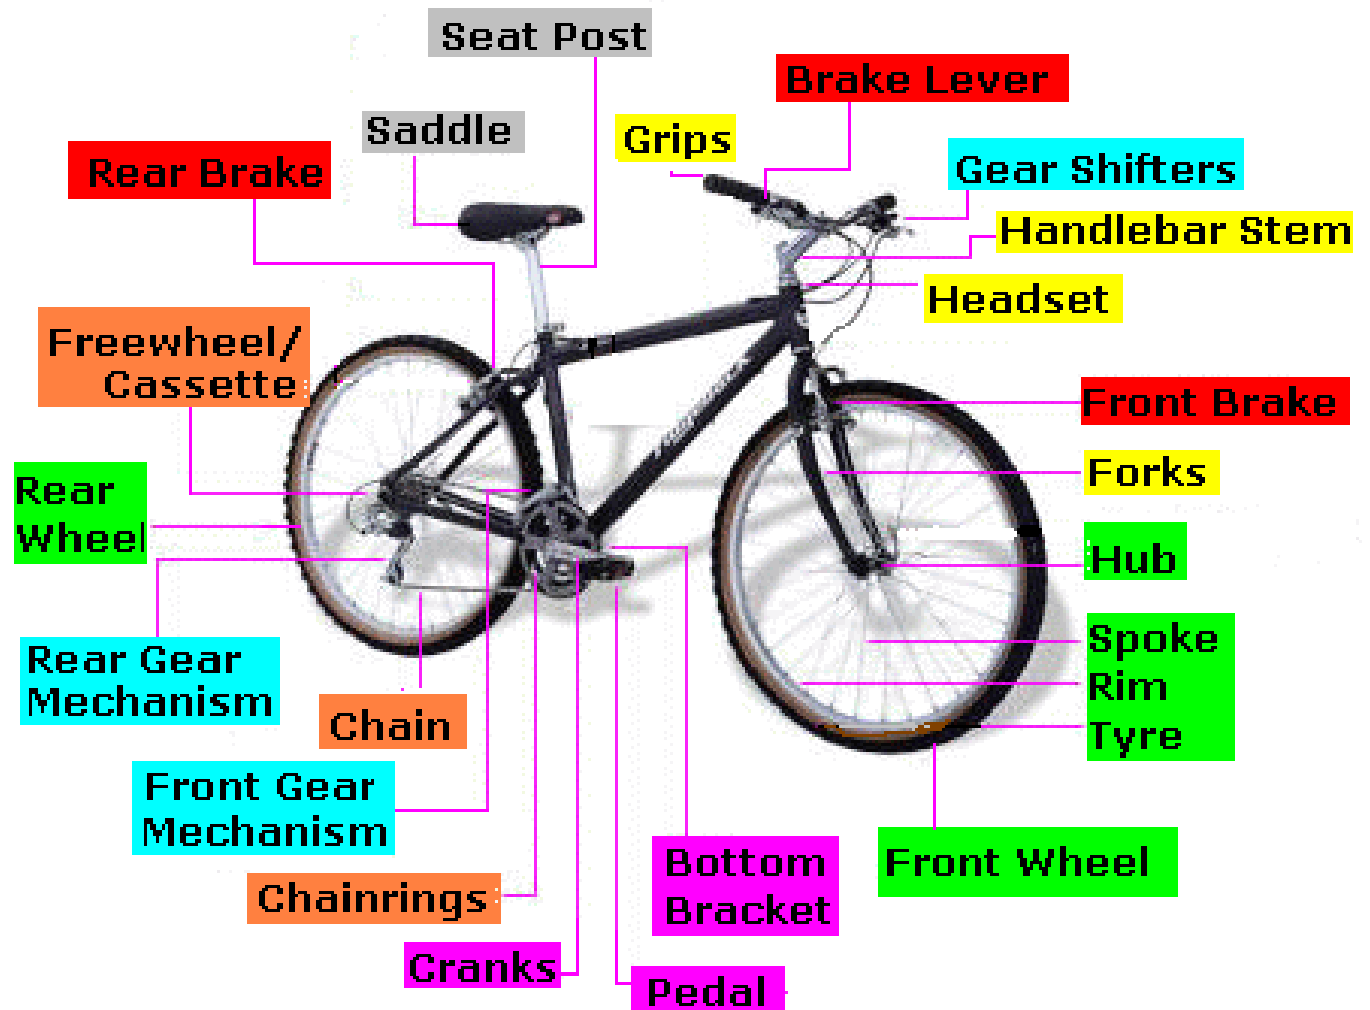

Please read the remarks overleaf.

Type of cycle:

Name of tester:

Date:

Place:

		Item	OK?	Remarks
1	Wheels	Front wheel		
2		Front tyre		
3		Front hub		
4		Rear wheel
