What is Cyclefleet?

Cyclefleet Ltd is an energetic business engaged in the promotion of cycling in all its forms both as a leisure activity and as a means of transport. Its revenue generating activities include the sales and hire of bicycles and associated accessories, the maintenance and management of bicycle fleets for all types of businesses, and corporate clients in the leisure / activity centre sectors. We also run 'Bikeability' Cycle Training and Bike Maintenance instruction classes for individuals and groups.

Who runs Cyclefleet?

Cyclefleet Ltd was founded in 2006 by **Andrew Jackson**, a keen cyclist with 23 years business experience. Andrew holds a Cytech 2 accreditation in Cycle Maintenance, and is a National Standards Cycle Instructor, and authorized 'Park Tool School' tutor. **Chris German** is an accredited British Cycling 'Go-Ride' qualified coach, a National Standards Cycle Instructor, and Cytech 2 technician. **Simon Hughes** is an expert bike builder, a National Standards Cycle Instructor, and Cytech 2 technician. In addition to her role as Company Secretary, **Fiona Jackson** brings a wealth of experience in retail management and children's education.

Do you supply bikes?

Yes – we have relationships with a number of key Cycle manufacturers, and can supply bikes and accessories to fulfill a wide range of needs, from leisure and commuting to off –road, and on road competition level machines.

Do you only supply fleets of bikes?

Whilst the mainstay of our business is the provision of Fleets to various organizations (Schools, Activity Centres, Public Sector bodies) and Companies, we are also able to source individual bikes, and small 'family' fleets. We offer a full after sales service tailored to our clients needs, and adopt a 'proactive' role in ensuring that the bikes we provide continue to give optimum performance and pleasure well beyond the initial purchase. We are currently an approved vendor to Buckinghamshire County Council to supply bikes and accessories, and to maintain their activity centre and business pool bike fleets.

Where are you based?

We currently operate a 'mobile' service from Prestwood (near Great Missenden) in Buckinghamshire, and plan to establish a Cycle Hire, Retail, Workshop, and Training Centre in due course.

How is the maintenance carried out?

Because of the number of bikes involved, we normally visit our corporate clients to carry out servicing and repairs, bringing most of the Workshop tools with us. We offer an annual service contract, which covers all the labour charges, with parts charged 'as needed'. There is also the option of a 'pay as you go' servicing schedule at a fixed hourly rate, although we do recommend regular service intervals based on usage to keep things running smoothly and to prolong the life of components.

Do you hire bikes?

We have our own fleet of quality 'All Terrain Bikes' (ATB's) all sporting front suspension available for daily, weekend or weekly rental. Please enquire for details.

What training do you do?

We are accredited by Cycling England and the CTC (Cyclists Touring Club) to run National Standards Cycle Training (now rebranded as 'Bikeability'). We endorse the aims of this programme to get '*more people cycling, more safely more often*'. This is a 3-stage course catering for complete beginners to advanced cyclists, with awards for achievement at each level. It is a very structured training system, which ensures that the required outcomes are met before progressing – it's also a lot of fun! We are presently working with a number of Schools as well as individuals to provide this. Please enquire for further details.

We also teach Cycle Maintenance classes under the 'Park Tool School' programme to small groups with 'hands –on' practical elements for participants to hone their skills under expert supervision.

How can I find out more?

For further information please contact us on the numbers below – we will be more than happy to talk through your requirements, or to impart some advice, or simply to chat about bikes and cycling!
